

# Abbreviation Guide

<b>ABW</b> .....average Body Weight	<b>HDPE</b> .....High Density Polyethylene	inflammatory Drug/s
<b>ADC</b> .....Average Daily Consumption	<b>Hg</b> .....Mercury	<b>NSP</b> .....Non-starch
<b>ADG</b> .....Average Daily Gain	<b>HIU</b> .....hemaggregation inhibiting unit	Polysaccharides
<b>ad libitum</b> .....freely, as desired	<b>HMTBa</b> .....2-hydroxy4-(methylthio) butanoic acid	<b>ORT</b> ..... <i>Ornithobacterium rhinotracheale</i>
<b>ad us. vet.</b> .....for veterinary use	<b>hr/hrs/hrly</b> .....hour/hours/hourly	<b>oz</b> .....ounce/s
<b>AE</b> .....Avian Encephalomyelitis	<b>HSCAS</b> .....Hydrated Sodium Calcium Alumino Silicate	<b>PD90</b> .....protective dose 90%
<b>Al</b> .....Aluminum	<b>HVT</b> .....Herpes Virus of Turkey	<b>PE</b> .....Polyethylene
<b>amp</b> .....ampule	<b>IBD</b> .....Infectious Bursal Disease/ Inflammatory Bowel Disease	<b>PED</b> .....Porcine Epidemic Diarrhea
<b>APP</b> ..... <i>Actinobacillus pleuropneumonia</i>	<b>IB</b> .....Infectious Bronchitis	<b>PMSG</b> .....Pregnant Mare Serum Gonadotrophin
<b>AR</b> .....atrophic Rhinitis	<b>i.e.</b> .....such as	<b>powd</b> .....powder
<b>BHA</b> .....Butylated hydroxyanisole	<b>IM</b> .....Intramuscular	<b>ppm</b> .....parts per million
<b>BHT</b> .....Butylated hydroxytoluene	<b>inj</b> .....injection	<b>PRRS</b> .....Porcine Reproductive & Respiratory Syndrome
<b>BID</b> .....twice a day	<b>IP</b> .....Intraperitoneal	<b>qID</b> .....four times daily
<b>BW</b> .....Bodyweight	<b>IU</b> .....International unit	<b>RBC</b> .....Red blood cells
<b>Ca</b> .....Calcium	<b>IV</b> .....Intravenous	<b>rDNA</b> .....Recombinant DNA
<b>cap/s</b> .....capsule/s	<b>K</b> .....Potassium	<b>resp</b> .....respiratory
<b>CCID50</b> .....cell culture infective dose 50%	<b>kcal</b> .....kilocalorie	<b>RNA</b> .....Ribonucleic acid
<b>CDV</b> .....Canine Distemper Virus	<b>kg</b> .....kilogram/s	<b>RTI</b> .....Respiratory Tract Infection
<b>CFU</b> .....Colony Forming units	<b>lb/s</b> .....pound/s	<b>Rx</b> .....prescription medicine
<b>CNS</b> .....Central Nervous System	<b>L</b> .....Liter/s	<b>SBM</b> .....soy bean meal
<b>conc</b> .....concentration	<b>LRTI</b> .....Lower Respiratory Tract infection	<b>SC</b> .....Subcutaneous
<b>CPV</b> .....Canine Parvovirus	<b>max</b> .....maximum	<b>sec</b> .....seconds
<b>CRD</b> .....Chronic Respiratory Disease	<b>MCFA</b> .....Medium Chain Fatty Acid	<b>SEP</b> .....Swine Enzootic Pneumonia
<b>Cu</b> .....Copper	<b>MDA</b> .....Maternally derived antibodies	<b>SHS</b> .....Swollen Head Syndrome
<b>CV</b> .....Cardiovascular	<b>mcg</b> .....microgram	<b>SIV</b> .....Swine Influenza Virus
<b>DHA</b> .....Docohexanoic acid	<b>MDV</b> .....Marek's Disease Virus	<b>soln</b> .....solution
<b>DHS</b> .....Dihydrostreptomycin	<b>ME</b> .....Metabolized Energy	<b>sp/spp</b> .....specie/s
<b>diHCl</b> .....dihydrochloride	<b>mEq</b> .....milliequivalent	<b>SPF</b> .....Specific Pathogen Free
<b>DNA</b> .....Deoxyribonucleic acid	<b>mg</b> .....milligram	<b>SRD</b> .....Swine Respiratory Disease
<b>EDS</b> .....Egg Drop Syndrome	<b>MIC</b> .....Minimum Inhibitory Concentration	<b>susp</b> .....suspension
<b>EDTA</b> .....Ethylenediaminetetraacetate	<b>min</b> .....minimum	<b>syr</b> .....syrup
<b>e.g.</b> .....for example	<b>MIU</b> .....Million International unit	<b>tab/s</b> .....tablet/s
<b>EID50</b> .....50% Egg Infective Dose	<b>mL</b> .....milliliter	<b>tbsp</b> .....tablespoon
<b>ELISA</b> .....Enzyme Link Immunosorbent Assay	<b>MMA</b> .....mastitis, metritis,agalactia	<b>TCID<sub>50</sub></b> .....Median Tissue Culture Infective Dose
<b>EPA</b> .....Eicosapentanoic acid	<b>mmol</b> .....millimole	<b>TDN</b> .....Total Digestible Nutrients
<b>equiv</b> .....equivalent	<b>Mn</b> .....Manganese	<b>TID</b> .....three times a day
<b>ETEC</b> .....Enterotoxigenic <i>E. Coli</i>	<b>MNB</b> .....Menadione nicotinamide bisulfite	<b>TGE</b> .....Transmissible Gastroenteritis
<b>FCR</b> .....Feed Conversion Ratio	<b>mo/mos</b> .....month/s	<b>TRTV</b> .....Turkey Rhinotracheitis Virus
<b>Fe</b> .....Iron	<b>MOS</b> .....Mannan-oligosaccharide	<b>tsp</b> .....teaspoon
<b>FOS</b> .....fructo-oligosaccharides	<b>MPS</b> .....Mycoplasma Pneumonia of Swine	<b>TxU</b> .....Endo-xylanase activity
<b>FTU</b> .....fluorescence thiourea	<b>MT</b> .....Metric Ton	<b>U</b> .....unit/s
<b>FyT</b> .....phytase activity unit	<b>Na</b> .....Sodium	<b>UGF</b> .....unidentified Growth Factors
<b>g</b> .....gram/s	<b>ND</b> .....Newcastle Disease	<b>USP</b> .....united States Pharmacopeia
<b>gal</b> .....gallon/s	<b>NHDC</b> .....Neohesperidine dihydro chalcone	<b>UTI</b> .....urinary Tract Infections
<b>GI</b> .....Gastrointestinal	<b>nlt</b> .....not less than	<b>w/w</b> .....weight in weight
<b>GIT</b> .....Gastrointestinal tract	<b>nmt</b> .....not more than	<b>w/v</b> .....weight in volume
<b>GLA</b> .....Gamma linolenic acid	<b>Non-Rx</b> .....non-prescription	<b>WSP</b> .....Water Soluble Powder
<b>GnRF</b> .....Gonadotrophin Releasing Factor	<b>NSAID/s</b> .....Non-Steroidal anti-	<b>wt</b> .....weight
<b>GU</b> .....Genito urinary		<b>wk/s</b> .....week/s
<b>GUT</b> .....Genito urinary Tract		<b>wkly</b> .....weekly
<b>HAU</b> .....Hemagglutinating units		<b>Zn</b> .....Zinc
<b>Hb</b> .....Hemoglobin		
<b>hCG</b> .....Human Chorionic Gonadotropin		
<b>HCl</b> .....hydrochloride
